PROFILE

I am a Web Developer with a strong foundation in building dynamic and scalable web applications. With expertise in technologies like React.js, Node.js, Express.js, and MongoDB, I specialize in creating responsive and user-friendly applications.

PROJECTS

- SoundSpace.
  Built with MERN Stack
  Developed a social media platform for creating and sharing playlists. Integrated Spotify API for direct playlist transfers, enhancing user experience through seamless music discovery and streaming. Enabled network-based interactions for users to explore and share music preferences.

- HMS DISTRIBUTORS
  Built with MERN Stack
  Designed and launched a website for HMS Egg Distributors to update and display daily prices of various egg types. The platform allows users to view current prices and easily contact the distributor via phone, email, or WhatsApp for inquiries.

- Other
  IN.VENTORY | SPACE | MOVIED

EXPERIENCE

Internship at VARCONS pvt ltd.

Built a full stack web app using React and Node JS, using which we can track live satellite position etc.,

WEBATHON

Participated in a hackathon where I built a e-commerce website named Agroflow along with my team members.
